

Homeowners

Today's busy homeowners want to spend more time relaxing and enjoying their beautiful landscapes. Around the world, customers turn to our strong brands for all their outdoor maintenance needs. From zero-turn riding mowers and walk power mowers to water-saving irrigation systems, handheld trimmers and blowers — our products are rich with innovative features; serviced by experienced dealers; and supported by an around-the-clock customer service network.

New Toro consumer products include:

TimeCutter® Z Zero-Turn Riding Mowers. Designed for homeowners with 1/2 to 2 acres of grass, the Toro TimeCutter Z reduces mowing time while delivering an exceptional quality of cut customers have come to expect from Toro. Solid construction provides for increased durability and longevity. **TITAN Z Zero-Turn Riding Mowers.**

Designed for homeowners that are long on grass and short on time, the Toro TITAN Z comes with heavy-duty hydrostatic transaxles to improve drive performance and longevity. With fully-welded mowing decks as large as 48 or 52 inches wide, the TITAN Z is suited for homeowners with more than an acre, and up to five acres, of grass. **Recycler® and Super**

Recycler® Series Walk Power Mowers. Toro Recycler and Super Recycler mowers do more than just cut grass — they cut it well and then mulch clippings into fine particles to keep lawns healthy. Select models come with Toro's exclusive Personal Pace® self-propel system, which automatically adjusts to your walking speed — the faster you walk the faster the mower goes. **Power Clear™ Single-**

Stage Snowthrower. This all-new, redesigned snowthrower includes the innovative Quick Shoot™ control system to help quickly and easily change directions of the chute to throw snow up to 35 feet. Includes the new Power Propel™ drive system with a floating scraper that pivots to keep the auger in constant contact with the pavement. **Power Sweep™ Blower.**

The new Toro Power Sweep blower presents a perfect balance of superior air power and lightweight design. A powerful 7-amp motor delivers up to 160 mph of air speed — all while weighing less than 5 pounds.

Homeowners (cont.)

New Toro irrigation solutions include:

Blue Stripe® Drip. Simple setup, smart savings and stunning success! Toro Blue Stripe drip irrigation systems make watering more efficient, saving time and money while using less water. Toro's new, easy-to-follow three-step installation process is color coded to make planning and setup simple.

Irrigation Design Service. The Toro Design Service makes planning a sprinkler or drip irrigation installation easy and precise, providing the

homeowner with a water-efficient, customized plan specific to the property's landscape. Each plan includes information on proper equipment placement, number of zones needed, ideal timer location, and a complete shopping list for all the parts and accessories. **ECXTRA™ Sprinkler Timer.**

The Toro ECXTRA timer makes irrigation programming quick and easy, and gives homeowners the tools to water with maximum efficiency.

This innovative system, which can be maintained from a home computer, uses information about the location of the landscape to generate a custom watering schedule unique to each homeowner's yard.
